

Using Picasa for Photo Albums and Slideshows

Log into isd271.org with your TIES username and password, click on **More**, then click on **Even More**, then **Picasa**

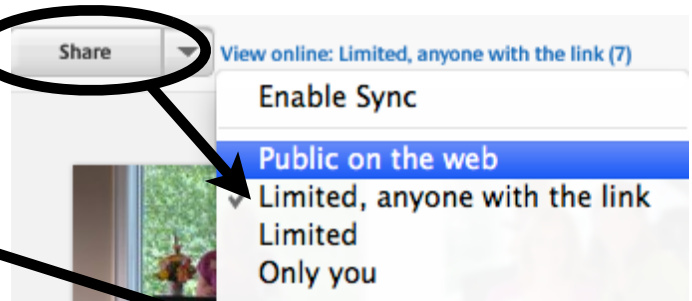

-You will need to **download** Picasa on to your computer to add photos and organize albums

-Once you have added pictures and created albums, they can be inserted on a Google Sites webpage. Place your cursor where you want the photo or album added, click on the **INSERT** menu, then click **Picasa Web Slideshow**.

-**Share** your album "Limited to anyone with the link."

-When using the Picasa from the program, don't forget to turn **Sync to web ON**, so you can see it while in Google sites.
